NO MONEY FOR KING'S HIGHWAY

Delegation of Property Owners Had Discouraging Reception at City Hall.

Headed by Dr. S. F. Neely, a committee from the King's Highway Improvement Association visited the City Hall Tuesday morning in the interest of the improvement of the highway south of Forest Park.

They called on the Board of Public Improvements and requested that the improvement be made at once. They were informed that there was no appropriation for the purpose. They then went to the office of Comptroller Player and asked that he make the necessary appropriation.

The comptroller informed them that it would be a waste of money to have the improvement made and then have the money taken away from them. They were told that the improvement would be made at once.

Cupid Spares Not the Aged.

Player replied that he would suggest the sewer building to the board, but that it was not his business to tell the board how to expend appropriations.

CHANGE OF VENUE IS COSTLY

Union Jury Gave William Reynolds Verdict of \$35,000 Against Transit Company of St. Louis.

A jury at Union, Franklin County, Mo., returned a verdict Monday night granting William Reynolds of St. Louis \$35,000 damages against the St. Louis Transit Co.

The suit was filed in St. Louis but was taken to Franklin County on a change of venue. The application for the change of venue was made by the transit company's attorneys. Thomas T. Pauntleroy, for Reynolds, resisted the application, but Judge Spencer granted it over his objection.

Reynolds alleged that he was knocked down and run over by a transit car last November and that his body and leg were seriously injured by the accident.

WHERE THEY FIRST MET

SIX YEARS AGO LOVE CAME TO FRED SHAPLEIGH.

CUPID SHOT HIM FROM A PIER

Looked Once and Saw Miss June Niederlander, Then Elope With Her Monday to Alton.

The elopement to Alton of Frederick W. Shapleigh, son of A. F. Shapleigh of 3333 Delmar boulevard, and Miss June Niederlander, daughter of Nicholas F. Niederlander, of 5223 Cates avenue, was a surprise to both families. But Col. Dan Cupid had been looking for just such an ending for six full years. He didn't know the day the hour, but he knew both would be reached in time.

The romance began when young Shapleigh was a student at the Western Military Academy at Alton, attended St. Paul's church and later, when he was a new with her sister. The girls were summering at Godfrey and drove into Alton frequently.

The marriage at Alton was a sequence to the meeting here. The Rev. H. M. Chittenden, performed the ceremony. Mr. Shapleigh is cashier of the American Indemnity Co. Mrs. Shapleigh's father is president of the Westinghouse Automatic Air and Steam Cooler Co.

At the groom's home his mother said yesterday afternoon that the first intimation she had of the wedding was a telegram received from her son at 6 o'clock. It read: "June and I are married. Will wire when and where to send the trunk." "I think it was a very nice trick," said Mrs. Shapleigh. "He often asked me if I would be mad if he eloped, and I invariably told him yes, adding that he should never do anything that did not meet our approval. We have no objection to offer to the match, excepting that he was too young and should have been married at home."

Mr. and Mrs. Shapleigh leave for a town of the Pacific coast and the North. Mrs. Shapleigh, mother of the groom, is a composer, and recently dedicated a two-step march to her son. It is called "The Wellington."

MULLANPHY BOARD OBJECTS

Specifications for Repairs on Its Property Are Rejected on Suggestion of Founder's Grandson.

The specifications for annual repairs on buildings belonging to the Mullanphy estate were rejected at the meeting of the commissioners held Monday at the office of Secretary George W. Fishback.

The criticisms offered by J. Mullanphy Cates, vice-president of the board, and grandson of Bryan Mullanphy, founder of the fund, caused the board's action.

W. A. Lucas, as commission architect, submitted the report and E. G. Wotchek of the building committee said that he had delegated the work to the architect, not having had time for a personal inspection.

BUFFALO LITHIA WATER

The Great Solvent and Eliminator of URIC ACID and other POISONS

Its Value in Gout, Rheumatism, etc.

Hunter McGuire, M. D., LL. D., late President and Professor of Clinical Surgery, University College of Medicine, Richmond, Va., and Ex-President American College of Physicians, says: "BUFFALO LITHIA WATER is invaluable in Uric Acid Gravel, and, indeed, in diseases generally dependent upon a Uric Acid Diathesis, it is a remedy of extraordinary potency. I have prescribed it in cases of Rheumatic Gout, which had resisted the ordinary remedies, with wonderfully good results. I have used it also in my own case, being a great sufferer from this malady, and have derived more benefit from it than from any other remedy, and I will add that I prescribe this water ten times where I prescribe any other once."

James K. Crook, A. M., M. D., Adjunct Professor of Clinical Medicine and Physical Diagnosis at the New York Post-Graduate Medical School (see "Mineral Waters of the United States," by him): "BUFFALO LITHIA WATER has gained a reputation, especially in the treatment of Uric Acid Diathesis, Gout, Rheumatism, Renal Calculus, Stone in the Bladder and Gastro-intestinal Disorders."

BUFFALO LITHIA WATER is for sale by Grocers and Druggists generally. Testimonials which defy all imputation or question sent to any address. Head at Springs, Virginia, June 12th, 1921. PROPRIETOR BUFFALO LITHIA SPRINGS, VIRGINIA.

Mrs. D. Arnold, President German Woman's Club, Grand Pacific Hotel, Los Angeles, Cal., Relieved of a Tumor by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered four years ago with a tumor in my womb, and the doctors declared I must go to the hospital and undergo an operation, which I dreaded very much and hesitated to submit. "My husband consulted an old friend who had studied medicine, although he was not a practicing physician, and he said he believed that Lydia E. Pinkham's Vegetable Compound would cure me. That same day I took my first dose, and I kept it up faithfully until twelve bottles had been used, and not only did the tumor disappear, but my general health was very much improved and I had not felt so well since I was a young woman."

"As I have suffered no relapse since, and as I took no other medicine, I am sure that your Compound restored my health and I believe saved my life."—MRS. D. ARNOLD.

THE GOVERNMENT'S CASE.

Special to the Post-Dispatch.
CHICAGO, April 29.—The bill for an injunction against the Beef Trust was finally presented to Judge Kankard yesterday, and among the following allegations:
That an agreement exists for the control of the beef trade.
That the agreement is to raise and lower prices of beef at will.
That the combine in its effects throttles competition.
That it fixes prices without regard to supply and demand.
That it maintains a blacklisting system for retailers who do not obey its fixed rules.
That the agreement provides for the perfect regulation and distribution of beef throughout the country without competition among themselves.

Special to the Post-Dispatch.

CHICAGO, April 29.—Chicago newspaper, through reputable agencies, made a careful investigation of the cattle and range conditions in Minnesota, North Dakota, South Dakota, Iowa, Nebraska, Missouri, Illinois, Kansas, Texas, Canada, Mexico.
By personal contact with stock raisers, bankers interested in cattle loans, stock reporters, railway stock buyers, editors and other local residents in the territory named, they have placed themselves in touch with the great cattle, sheep and hog producing factors in the heart of the provisions country.
In the United States they touched the 600 and 800 mile area out from Chicago, in which the finest beef, pork and mutton of the world are produced. In Mexico they touched the great range of the Pecos, the Colorado and the Rio Grande, and the stock supply of 1902 as compared with that of 1901.
Care was taken to investigate meteorological conditions, freshness or dryness of the grass areas, visible signs of "stock" and "feeders" and the stock supply of 1902 as compared with that of 1901.
The conditions now existing in the live stock and dressed beef markets are similar to those discovered by the United States Senate in 1900.

Cattle Shortage Only Slight.

As a result of their investigations the following summary is presented:
Drought areas have been comparatively small, the drought period short and the present conditions of the range fair to excellent. No permanently destructive drought has existed.

Feed was high during the fall and winter, and this led to the throwing on the market of many thin cattle, but not sufficient quantity nor so inferior in quality as to justify the recent sharp price advances.

The cattle shortage has been greatly exaggerated, and in steers does not exceed over 1,000,000, as compared with the last stock census, that 10,000,000 steers are now on the ranges.

Hogs and sheep are in excellent condition and the supply apparently is ample for ordinary demands.

Combinations of the railways with the big packing firms have existed to the injury of the competitive stock raiser and packer. Prices to cattle sellers have been manipulated by either a one-man market, as in St. Paul, or mutual agreement meetings of packers' representatives, as in Sioux City.

No incorporated beef trust is alleged, but a distinct public opinion exists that all buying and selling of cattle is regulated by six big packing firms, without regard to natural conditions.

Excessive storage facilities, and railway rebates have enabled the big packers to monopolize and manipulate the live stock and dressed beef markets, and incidentally poultry and eggs.

The conditions now existing in the live stock and dressed beef markets are similar to those discovered by the United States Senate in 1900.

"The Community of Interests."
The investigation of the interstate commerce commission at the close of this year sustains the charges now made as to a community of interest between the packers and railways.

The cattle supply condition of Mexico is fair, but the American tariff and severe inspection laws prevent that country's product competing in this market.

There is a cattle shortage in Canada due largely to export trade, and prices are high. Canadian cattle are barred from this country by tariff impositions.

Under the Dingley law the duty on beef cattle is 7% per cent; a steer worth \$100 would cost if brought from Canada \$10. The duty on sheep is \$1.50 a head, on fresh beef, mutton and pork 2 cents a pound.

Between the protection of the tariff and the rebates offered the railways the packers of the country controlled 400,000,000 pounds of stored provisions on the opening of the year, on which a 1-cent advance in price meant a profit of \$4,000,000.

In all parts of the West there is strong belief that the beef market is manipulated by the packers, and in support of this contention the government has secured and undoubtedly presented to the attorney-general the following facts: The government census of Western steers of April 15 shows no alarming shortage of cattle on the ranges. The shortage, as compared with the last census, is less than 1,000,000. Further, the latest compilation of domestic trade movement made by the Bureau of Statistics of the treasury department show that the live stock and dressed beef markets are similar to those discovered by the United States Senate in 1900.

Firms That Receive Favors.
The packing firms, to which it was testified that rebates amounting to very large sums in the aggregate were paid during 1901 and the representatives to whom the money was paid, so far as testified to, were the following:
Cudahy Packing Co., J. A. McNaughton.
Omaha Packing Co., C. K. Urquhart.
Swanwick & Slaughter, E. E. Macchettie.
Armour & Co., J. W. Wells and George Frisby.
Nelson, Morris & Co., John G. Taylor.
Swift & Co., A. R. Fay.
Ruddy Brothers.
Fowler & Co.

From Jan. 1 to April, 1901, tariff rates were obtained on packing-house products and dressed beef. From April to July there was a concession of 3 cents from the Missouri river to the seaboard on both domestic and export traffic. From July to January, 1902, there was a concession of 6 cents from the river to Chicago, and of 6 cents from Chicago to the seaboard on both domestic and export traffic.

During the early months of the year shipments were billed at tariff rates, and rebates paid either in the form of vouchers or checks payable to the packing-house or to their representatives, and during the latter part of the year the practice was to bill at the tariff rate, and then to bill the general agent of the packing-house.

NEGRO FELL FIFTY FEET

Stone in Fifth Story of Dunham Company Building Gave Way With Workman on It.

A stone window sill in the fifth story of the building formerly occupied by the Dunham Manufacturing Co., at 9 and 11 Locust street, gave way shortly before 8 o'clock Tuesday morning, while Ben Johnson, a negro laborer employed in wrecking the building, was seated upon it.

The stone fell to the narrow sidewalk, 50 feet below, and the man fell after it. As the stone struck the pile of bricks on the walk he struck the stone and rolled unconscious to the pavement.

Laborers on the levee who witnessed the fall say that Johnson started with a heavy hammer, but by an effort turned himself so as to light on his side.

When Johnson was picked up one of his legs was found to be broken in two places. He was unconscious, and it was believed he had been fatally hurt. He was sent to the City Hospital.

Some of the other negroes employed on the work were so affected by the accident that they asked to be given work on the grounds. Others of them were alarmed by the accident into any place where the yielding of the masonry could cause them to fall.

The injured man was 42 years old and lived at 60 North Levee.

SHIP TRUST'S HAND IS FELT.
LONDON, April 29.—Excitement caused by the shipping deal is subsiding, owing to the maze of contradictions and the lack of authentic information, but the sentiment of uneasiness remains unmistakably for independence.

Domestic officials here, who are highly excited over the reports received at the emigration office that the shipping combination, with two Canadian lines in it, is ready interfering with systematized operations, are still further alarmed by the announcement that Bureau Commissioner Preston has confirmed the reports.

St. Louis Jockey Sought Death.
A telegram from Springfield, Ill., states that James Russell, a St. Louis jockey, attempted suicide by taking morphine in a large quantity. Russell went to Springfield to take the heat of a string race horses at the State Fair grounds. He says that a bad dream is the cause of his attempt at self destruction.

Canadian and American Troubles.
From the New York Sun.
There is trouble over the boundary, and friction and delay and disappointment about reciprocity in trade, the boundary and the question of reciprocity and all other questions that can plague people living in countries whose borders are not well defined. The Canadian coast on opposite side of the ocean, could be crossed at the present time, and the people of the Canadian coast could light the spark of Americanism and become the peers of all nations.

Perfection in the present arrangement of constitutional divisions seems able to meet the needs and demands of the people.

HE WAS CURED OF LOCKJAW

Man Whose Jaws Were Rigidly Fastened Together Dosed With \$500 Worth of Antitoxin.

PHILADELPHIA, April 29.—Edward Moore, who was admitted to the Samaritan Hospital a month ago with a severe attack of lockjaw or tetanus, was discharged today perfectly cured.

On March 15 Mr. Moore was struck on the face by a swinging door, breaking the skin and causing blood poisoning. Lockjaw soon resulted from the injury and the case was 10 days advanced before the help of the hospital physicians was called in.

Moore was at once given the antitoxin treatment. Every two hours the antitoxin was injected into his spinal cord. After two days of this treatment the number of injections per day was reduced from 12 to six.

From the first day Moore began to improve, and is now perfectly restored to health. His case is regarded as the most notable of the kind in medical annals, because of the advanced stage of the disease when first treated. When he was admitted to the hospital his body was as rigid as a board, and his jaws were clamped together by a swinging door, breaking the skin and causing blood poisoning. Five hundred dollars' worth of antitoxin was injected in him before his recovery was complete.

TWO BOYS ON TRAIL OF A GIRL IN RED

ONE IS HER SWEETHEART, ONE
HER BROTHER.

NEITHER HAS ANY MONEY

They Have Followed Rebecca Rothaler
From Chicago to Omaha to St.
Louis in Vain.

Sam Rothaler, 16 years old, and Louis
Grossman, aged 15, two Chicago boys, trav-
eled from that city to Omaha, to Kansas
City, to St. Louis and to East St. Louis in
search of Rebecca Rothaler, the 15-year-
old sister of Sam, who had run away from
them.

home, looking for the bright red dress
in away her brother and
the Grossman, who was her boy sweet-
heart, heard that she had gone to Omaha.
They had no money and knew it would
be useless to ask their parents for any, so
they ran away, too, and started after the
other runaway.
They thought Omaha was a small place.
When they got there and saw that was a
city the almost despair of finding the
missing girl, but they had a good descrip-
tion of her and learned things which led
them to believe she had gone to Kansas
City. They traveled on there and, not find-
ing her, came on to St. Louis.
At Union Station the boys gave a de-
scription of the girl to a policeman and he
told them he believed he had seen the girl
leave a train and leave the depot with a
young man.
The boys wandered about the streets
Monday, looking for the bright red dress
the girl wore, but they did not find her.
In the afternoon they crossed the river
and an East St. Louis policeman locked
them up. They told the story of their
search to Chief Hauss and he released
them.

The title of the picture is

The Coming of Love

Painted by C. Briand

It is the season of blossoms, the sea-
son of awakening. Fancies of man and
maid turn to thoughts of love. All na-
ture is yielding to the warm impulse,
gladly welcoming the flying Cupid and
counting his archery pleasant, however
deep he wounds.

The painter has realized on canvas the
spirit of the season. A maiden blossom-
ing to womanhood stands expectant
and welcoming the god of the arrow
who flies toward her bearing the flower
crown of her election to the glorious
company of the beloved. Doves sur-
round her, billing and cooing; a cherub
bearing violets attends her, and another
maiden to whom Cupid will come another
day, smiles happily to see her happiness.
The coloring is brilliant, the compo-
sition full of fancy and the painting ex-
quisite.

FORMER OFFICER IN REMOUNT SERVICE ACCUSES BRITISH

Exhibits Documents to Show
Military Posts Are Main-
tained Here.

HE WAS ENLISTED AT ONE

DISCHARGED HONORABLY AFTER
EIGHT MONTHS' OPERATION.

J. T. Carmody, Who Ranked as Cap-
tain, Says Strictest English Dis-
cipline Prevails in All the
Camps on American Soil.

Special to the Post-Dispatch.
NEW YORK, April 28.—Letter paper of
the Planter's House, in St. Louis, was used
by the commander of the British forces at
present in the United States to order his
subordinates to spy upon Americans.

This is one of the startling statements
made today by James T. Carmody, a Mary-
land born man, who recently held the high
position of captain in the remount service
of the British army.

Other statements by Carmody indicate,
with apparent conclusiveness, that military
posts are being maintained in this country
by the British war office.

Carmody was honorably discharged from
the British remount commission in this
country after eight months' service.

He held the title of sergeant, but rank of
captain in this service, and was paid the
equivalent of \$22.75 a day, with traveling ex-
penses besides.

It may be stated, to establish the char-
acter of this service in America, that the
British war office some time ago raised the
pay of its captains here \$10 a day.

The department's orders directing this
raise distinctly set forth that it was made
so the captains might "live in a manner be-
coming an officer bearing his majesty's
commission."

The authority for the facts that follow
cannot be doubted after reading the letter
on embossed official paper of the Brit-
ish army.

"British Remount Commission, New Or-
leans.
"Mr. James Carmody has been employed
with the British Remount Commission in
New Orleans for the past eight months,
and during that time has done his work
well and given every satisfaction. He
now leaves the commission owing to con-
ditions which necessitate a reduction of staff.
"L. L. FENNER,
"Captain, Remount Officer, New Orleans."

How the British
Are Operating Here.
Carmody, who is a clear-headed, well-ed-
ucated man, declares:

That four British military establishments
are now maintained on the neutral soil of
the United States.

That these military depots, in Louisiana
and Missouri, are conducted in precisely the
same way, and that the men in them are
under the same discipline as in like re-
mount establishments in England, South Af-
rica and Canada, save that the King's of-
ficers on duty in this country do not wear
uniforms.

That the officers were ordered to duty here
by the British war office, and that they di-
rect control they are.

That the officer in command, Capt. de
Burgh, is the assistant inspector of re-
mounts in the British army.

Carmody and his friend, Glascock, joined
Brabant's Horse, and shipped to South
Africa. They were wounded at Pretorius-
burg and were invalided home. There they came
to New York.

Carmody insists that they did not know
Col. de Burgh was aware of their presence
in this country until Carmody got a letter
from De Burgh, instructing him and Glas-
cock to report at Kansas City to Maj. J.
Moore of the veterinary department of the
British army, who commands the supply
depot at Lathrop.

It must appear from this letter that Col.
de Burgh and Carmody and Glascock were
on most friendly terms. The letter is writ-
ten on letterheads of the Planter's Hotel, St.
Louis:

Letter Written
at Planter's Hotel.
"May 19, 1901.
"Dear Carmody:
"Thanks for your note. I am glad to
hear that you and Glascock have some
pleasure in your work. You have not had
much heavy work yet, but it may come any
day, when I hope I may hear that you are
ready to go for a V. C.
"It is a pleasure to me to have good re-
ports of you both. I trust you are taking
every opportunity of learning something,
however unimportant it may seem to you
now. You never know when you are in-
forming all kinds may come handy to you in the
struggle for existence.
"I may drop in on you any day. Kind
regards. Sincerely yours,
"CLIRICK DE BURGH."

When Carmody signed for service in the
United States he was compelled to attach
his signature to a long list of articles un-
der the caption:

"New Orleans, La., United States of
North America.
"Terms arranged between Col. U. de
Burgh (O. C. North America), Remount
Commission-Inspector Remounts,
British Army, and . . .

The third article is:
"I agree to serve anywhere in North
America as may be directed by the O. C.
and in any capacity which involves such
duties as are usually expected on the part
of commissioned officers of his majesty's
army."

Article 4 says: "I agree . . . not to
make any claims for traveling allowance
against the British government."

Articles Show He
Is a British Officer.
Articles 7 and 8 leave no doubt of what
they mean. The former says to the discre-
tion of the officer commanding should I be-
come involved in any state of affairs which
may be unbecoming the character of an of-
ficer bearing his majesty's commission."

Article 8 says: "I agree to treat as ab-
solutely confidential and not to divulge, in
conversation or by writing, to any person
unconnected with the commission, any cir-
cumstance which comes within my knowl-
edge in consequence of any position which
may be given me, unless with the written
permission of the O. C. the commissioner."
Commenting on the American war depart-
ment's failure to find anything wrong in
these camps, Carmody said:

"The very terms of the agreement we
signed prove that the British establish-
ments on American soil are military posts.
Read article 2.
"That means to fight for the King and to
obey orders. By the act of signing it, we
were enrolled in King Edward's army. We
were ordered to Fort Chalmette.
"There are now four military posts in the
United States—that at Lathrop, which is
the headquarters; one at Billings, Montana,
which is the camp for buying horses; one
at Fort Worth, Tex., for buying mules, and
one at Fort Chalmette, a tremendous es-
tablishment, where all the horses and mules
are gathered for shipment on transports
which the admiralty chartered.
"These posts are under the strictest mili-
tary discipline. Even formerly the Brit-
ish army. Soon after I arrived at New Or-
leans a man in my command was rather
cocky. Instead of reporting him to Capt.
Fenner, I reported in writing to Col. de
Burgh, who took no notice of him. The
time the colonel saw me he said, rather
severely:
"Carmody, you surely have seen enough
of the service to know that when you report
a subordinate, you must report him to your
immediate commanding officer."

Many British Officers
Are in Service Here.
Carmody gave a list of British army offi-
cers who are now or have been on duty at
these posts. It reads like several pages

KING IS TO VISIT THE ABBEY.

He Will Attend the Smoke Service for
Workmen.

Special Cable to the Post-Dispatch.

LONDON, April 28.—The King intends to
inspect Westminster Abbey soon to see how
the arrangements for the coronation are
getting on.

He will time his visit so as to be present
at the smoke service arranged at the noon
hour for the workmen who are engaged in
preparing the abbey by Canon Wilberforce,
barrister at law, and the speaker of the House of Commons.

The services are held in the cloister, and
although Canon Wilberforce has been much
criticized because of them, the dean re-
fuses to interfere. Each time there is no
woodwork there to catch fire. The men
attend in large numbers because they are
permitted to enjoy their pipes.

CHICAGO OFFICERS TO APPEAL.

ROME, April 28.—Officers of the cruiser
Chicago just sentenced for disorderly con-
duct will appeal their cases and then ask
for pardon from the King.

Commander Beeher, the American naval
attaché at Rome, visited the minister of na-
vies, intending to express his regret over
the behavior of the officers of the Chicago,
but the minister, appreciating his embar-
rassing position, avoided the subject and
expressed his admiration of the American
navy.

Reactionists, in Control of Russian
Government, Ignore Czar's Protests.
Special Cable to the Post-Dispatch.
(Copyright, 1902, by Press Publishing Co.)
ST. PETERSBURG (via Berlin), April 28.
—Privy Councillor Seuger, known as "Seuger
the Stupid," has been appointed minister
of instruction in the teeth of the Czar's
protests. The reactionary forces are now
entirely in the ascendant in the government.
Seuger, as chief of the education depart-
ment at Warsaw, won infamous notoriety
for tyrannical treatment of Polish students.
His first act in his new office was to
promulgate an order that every student
shall carry on his person his photograph
and credentials, which he must exhibit to
any policeman who demands it. The ap-
pointment is causing much ferment in official
circles and further disturbances are feared.
It is long since there has been such gen-
eral unrest throughout the empire, which
is caused by the steadily increasing repres-
sion.

GRAIN MARKETS SHOW STRENGTH

RAIN DID NOT FALL MONDAY IN
KANSAS AND NEBRASKA.

CORN MOVEMENT WAS HEAVY

Wheat Opened With Gains and Held
the Advance at the Close—
Foreign Markets Easy.

The weather map Tuesday did not show the general rains in western and southern Kansas which private wires reported were falling Monday. In fact, the only fall was at McPherson. Nebraska got no moisture. There were good rains in Illinois, eastern Missouri, Indiana, Ohio and Tennessee.

The lack of rain where it is so badly needed caused the markets to open stronger and hold the gains during the first hour. Then realizing wheat was not so strong, the market made a slight decline. July wheat advanced to 74 1/2¢ and closed with a gain of 1/2¢ at 74 1/2¢. July corn sold up to 64 1/2¢ and closed with a gain of 1/2¢ at 64 1/2¢.

Liverpool opened with wheat 1 1/2¢ lower in sympathy with the weakness in America Monday. During the session both options steadied 1/2¢ on covering in May contracts. Corn opened unchanged to 1/2¢ lower, reflecting America's weakness. September wheat was inactive, due to neglect. Wheat closed with a loss of 1/2¢ and corn down 1/2¢. Spot wheat was steady to 1/2¢ lower and spot corn off 1/2¢. Paris closed 1/2¢ to 1/2¢ off. Berlin was down 1/2¢ and Budapest 1/2¢ lower than Monday. London closed with wheat 1/2¢ to 1/2¢ off and corn unchanged to 1/2¢ lower.

The northwest wheat movement was light, receipts at Minneapolis and Duluth being 17 cars, compared with 153 a year ago. St. Louis received only 22,000 bu. Clearances were 42,000 bu. The cash demand was good, and New York reported some export buying. Receipts of wheat at primary points today were 218,000 bu., as compared with 406,000 bu. same date last year. Shipments, 220,000 bu., compared with 48,000 bu. same date last year.

May wheat opened 1/2¢ off at 74¢, but July showed a gain of 1/2¢ to 74 1/2¢, opening at 74 1/2¢. The option sagged to 74¢, and during the first hour of trading fluctuated between 74¢ and 74 1/2¢. Outside buying caused an advance to 74 1/2¢. Then the offerings became heavy on better weather reports and profit-taking, and the option dropped to 74¢. Kansas continued to send in damaged crops, and the selling pressure let up July sold up to 74 1/2¢ and closed 1/2¢ off at 74 1/2¢. May sold from 74¢ to 74 1/2¢, fell back to 74¢ and rallied closed with a gain of 1/2¢ at 74 1/2¢.

Corn receipts were heavy, being 30,000 bu. at St. Louis, compared with 10,200 bu. a year ago. Clearances were 14,500 bu. Receipts of corn at primary points today were 34,175 bu., as compared with 43,000 bu. same date last year. Shipments, 212,970 bu., as compared with 315,000 bu. same date last year.

July corn opened 1/2¢ up at 64 1/2¢, sold down to 64 1/2¢ and rallied to 64 1/2¢ and closed 1/2¢ up at 64 1/2¢. May corn opened 1/2¢ up at 64 1/2¢, sold up to 64 1/2¢, fell back to 64¢ and rallied to 64 1/2¢. Sept. closed at 64 1/2¢, sold up to 64 1/2¢ and declined closed unchanged at 64 1/2¢.

Receipts of oats at primary points today were 48,531 bu., as compared with 47,000 bu. same date last year. Shipments, 27,000 bu., compared with 41,000 bu. same date last year.

The oats market was inactive. May opened 1/2¢ off at 42 1/2¢ and July 1/2¢ up at 43 1/2¢. July advanced to 43 1/2¢, fell back to 43 1/2¢ and closed 1/2¢ below Monday. July closed 1/2¢ at 43 1/2¢ and the last sale of Sept. was at 43 1/2¢.

ACRES OF GOLD

A SOLID BODY OF GOLD-BEARING SHALE.

\$5,220,000.00 PER ACRE.

WHY WE SAY ACRES OF GOLD.

That the public may grasp some idea of the enormity of this storehouse of golden wealth, we have reduced value of these acres to a mathematical fact. The Shale deposits along the Smoky Hill River, in Western Kansas (near the Colorado line) lay flat like coal mines—making it an easy matter to compute the tonnage. The official geological reports of the State of Kansas show the shales to be of an average thickness of over 400 feet. Shafts have been sunk to a depth of over 200 feet, and still in Shales at the bottom and far richer than on the surface. To be extremely conservative we base our calculation on an average thickness of 300 feet; the Shale runs 15 cubic feet per ton. On that basis each acre would contain 870,000 tons. Late laboratory tests and mill runs show the Shale values to be \$8.00 to \$10.00 per ton. Again being conservative, we base our calculations at \$6 per ton—WHICH PRODUCES THE GRANDEST ARRAY OF FIGURES EVER DREAMED OF FOR AN ACRE OF GROUND, \$5,220,000.00. This is no iridescent dream, but the statement of a mathematical fact.

Suppose we discredit reason and facts, and arbitrarily place the net saving at only \$1.00 per ton. WE STILL HAVE LEFT THE MAGNIFICENT VALUE OF \$870,000 per acre.

NOTE.

THE KANSAS PIONEER GOLD SHALE COMPANY HAS A LARGE ACREAGE IN THE RICHEST SECTION OF THESE GOLD SHALE DEPOSITS, AND CONTROLS A PROCESS FOR THE EXTRACTION OF THEIR VALUES AT A COST NOT TO EXCEED \$1.00 PER TON.
